

## QUAIFE INTERMARQUE CHAMPIONSHIP 2013

### TECHNICAL CLARIFICATION 2013/01

Following a number of questions over the past weeks I would advise the following:-

Class HR bonnets:

You are allowed a maximum of 3 ventilation holes no larger than 54 square inches each. This measurement cannot be used cumulatively to achieve a single larger hole.

We will be paying close attention to this as from the first round.

Class HR splitters:

For the purposes, of these regulations the 'bumper' is the base of the front downwards pointing bodywork where a bumper would be fitted on a road car from which the bodywork is derived. The measurement of 100mm will be taken from this point.
